[Version 2.0, April 2005]

From the first issue in September 1983 to the Fall 2004 issue, the newsletter has been a great success. With six editors compiling the various member contributions and gathering a wealth of pewter related information, the *Newsletter* has been a source of information for over twenty-one years. This disk, the second production disk, was created to provide a single archive for the information created.

Comments on ways to improve the presentation are welcome and encouraged. ***The Editor***
