An Interesting Collection of Pewter Snuff Boxes

This first one is amusing and unusual , hence why featured by itself. The size is 6.5cms x 4.2cms and most of the others shown are neither much larger nor much smaller. We thank the owner for her kind permission to show these here.

The Wedding Day

Three Weeks After Marriage

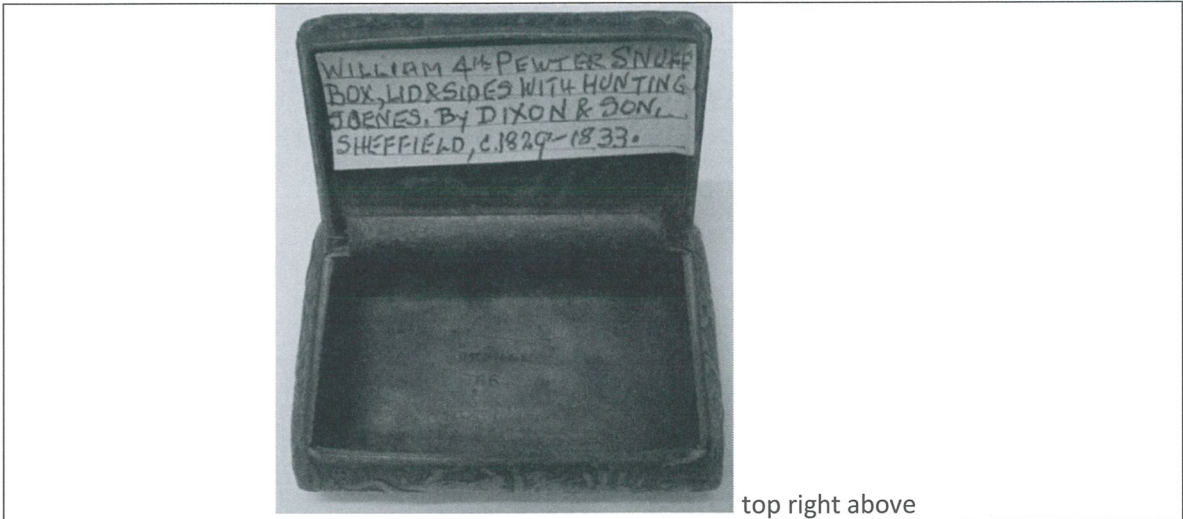

and a photo of it opened follows -

Here follow a number of others -

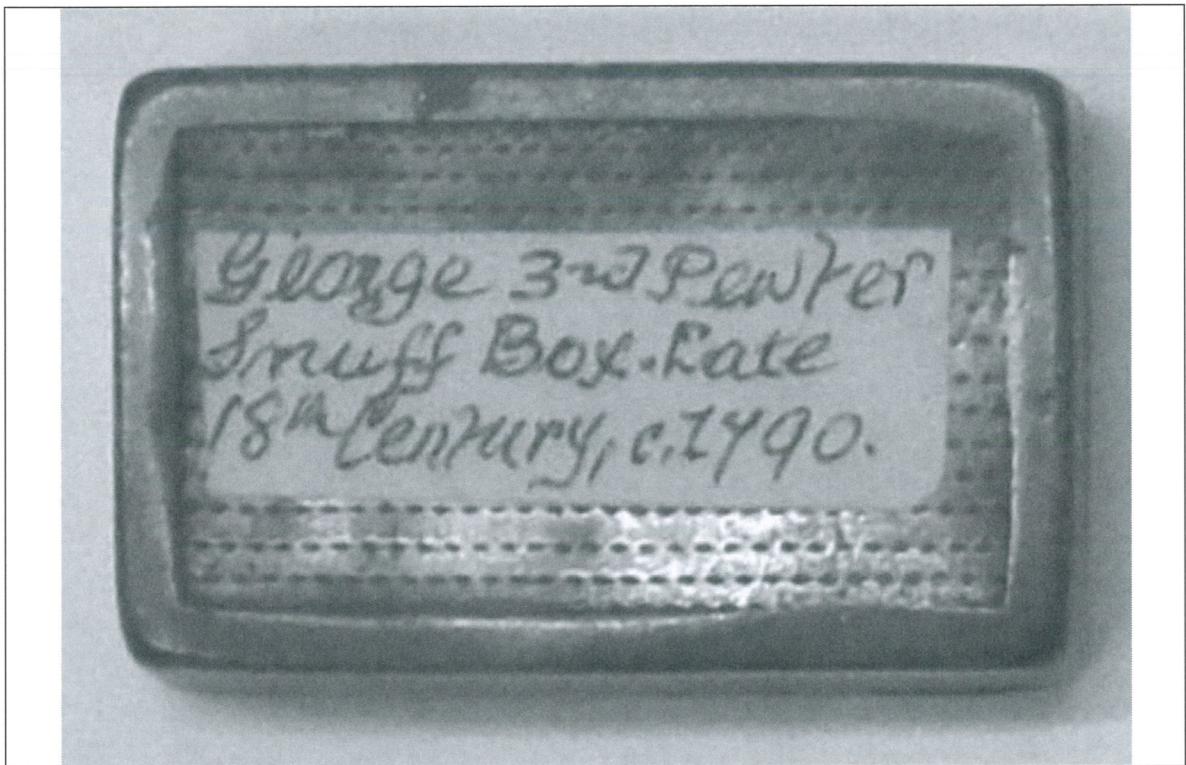

top right above

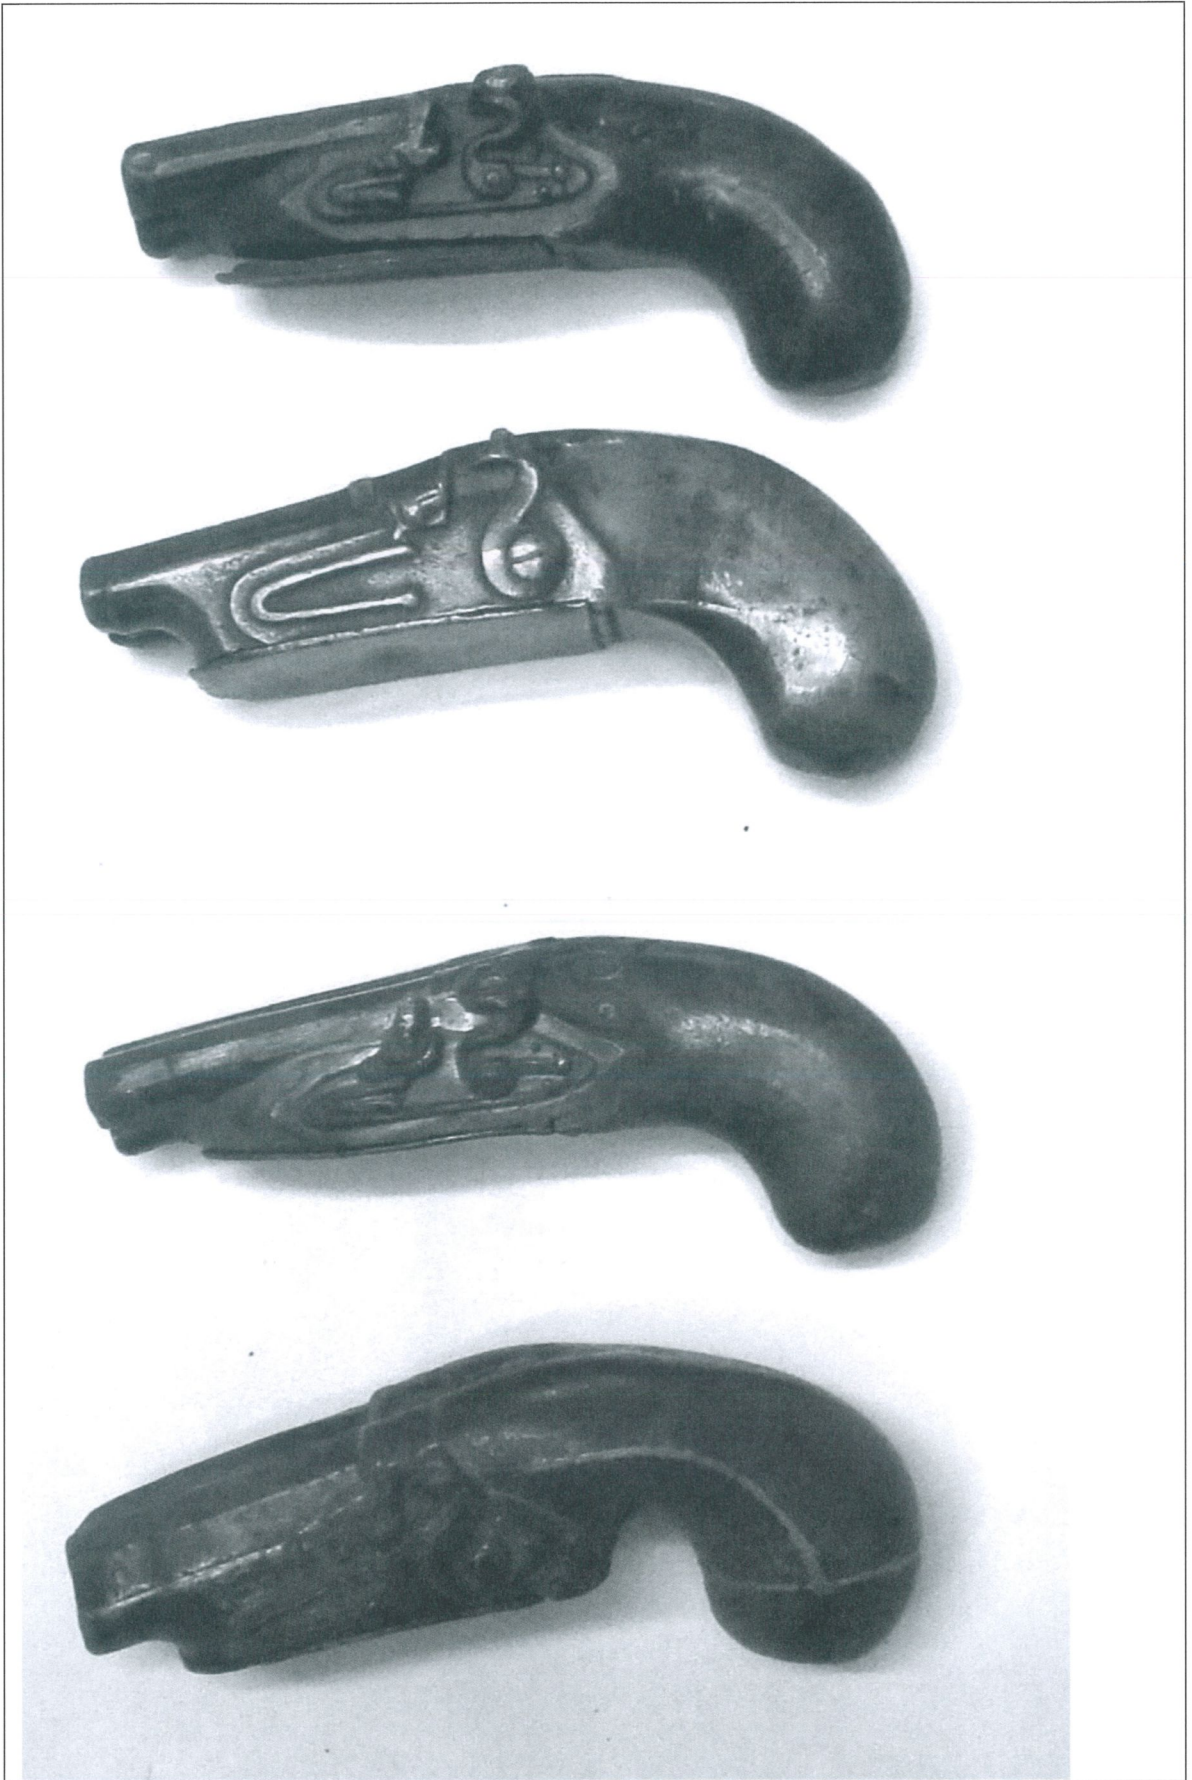

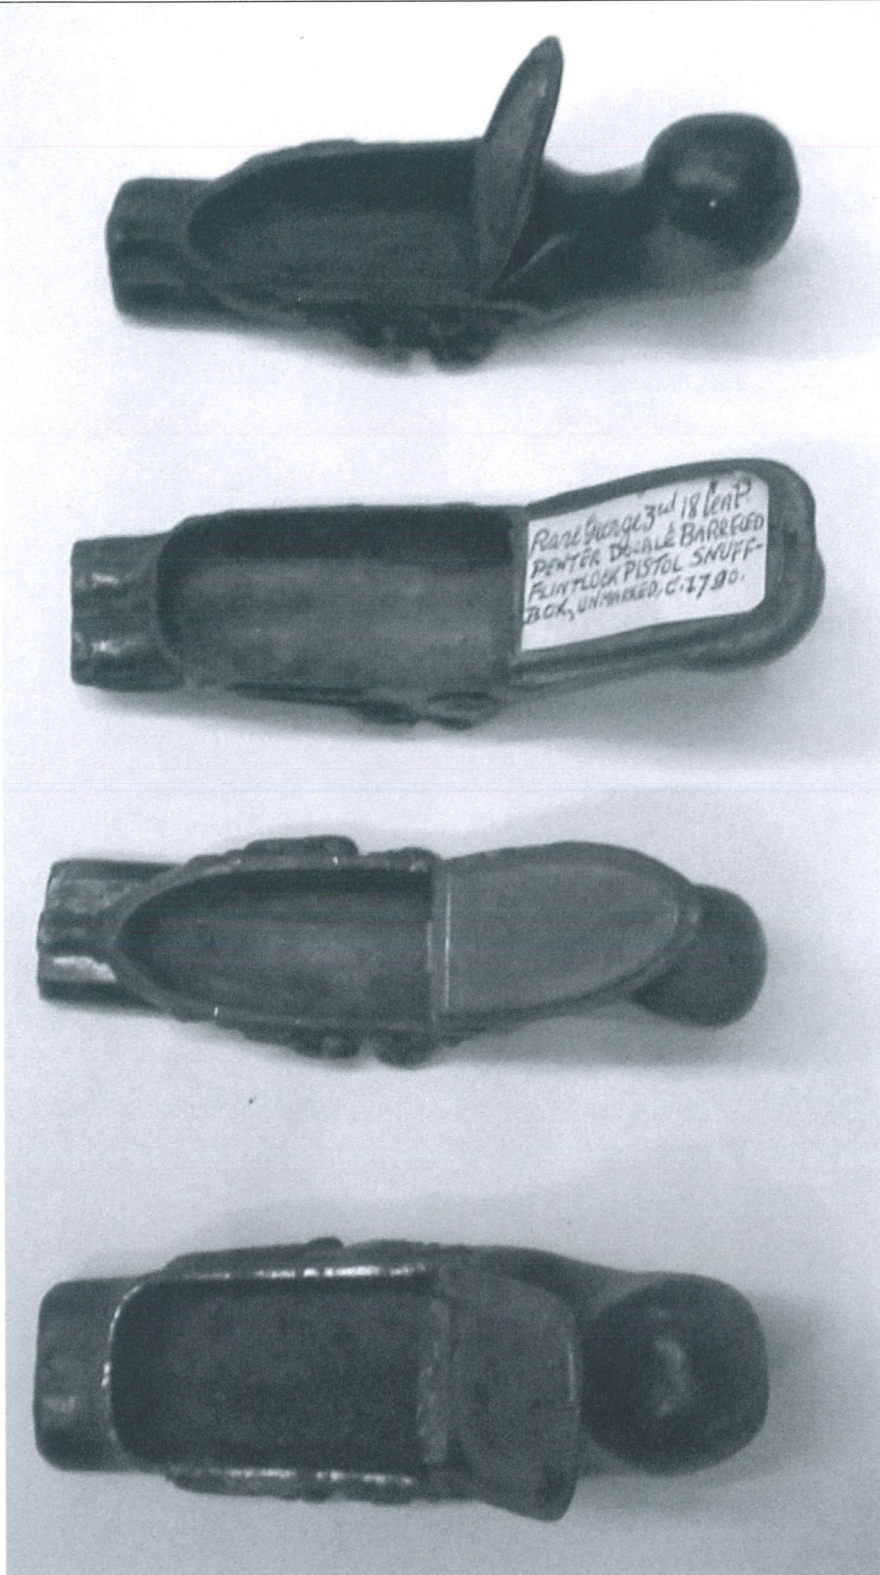

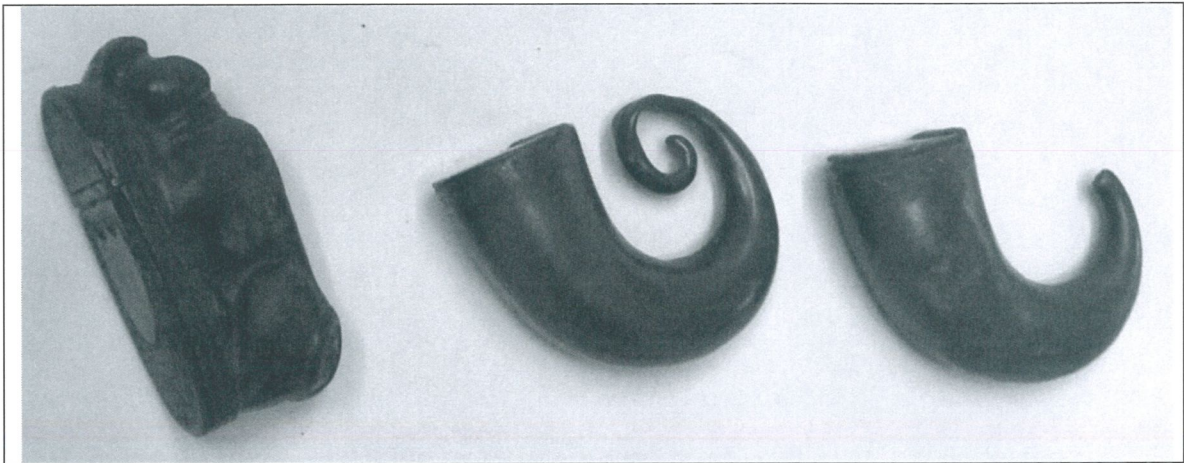

Second row right hand side

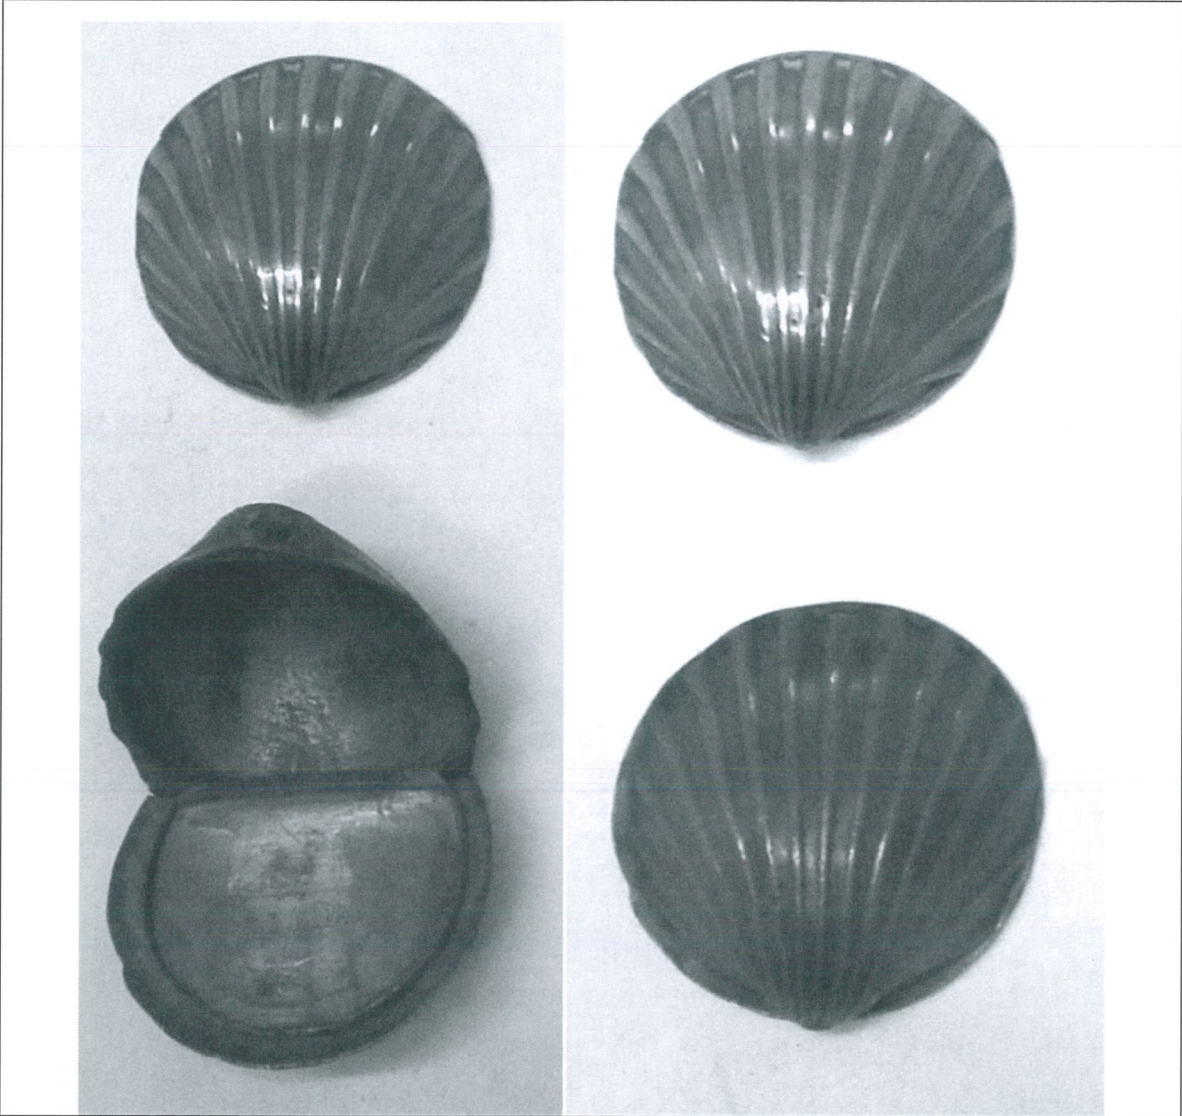

Pistol snuff boxes shown open

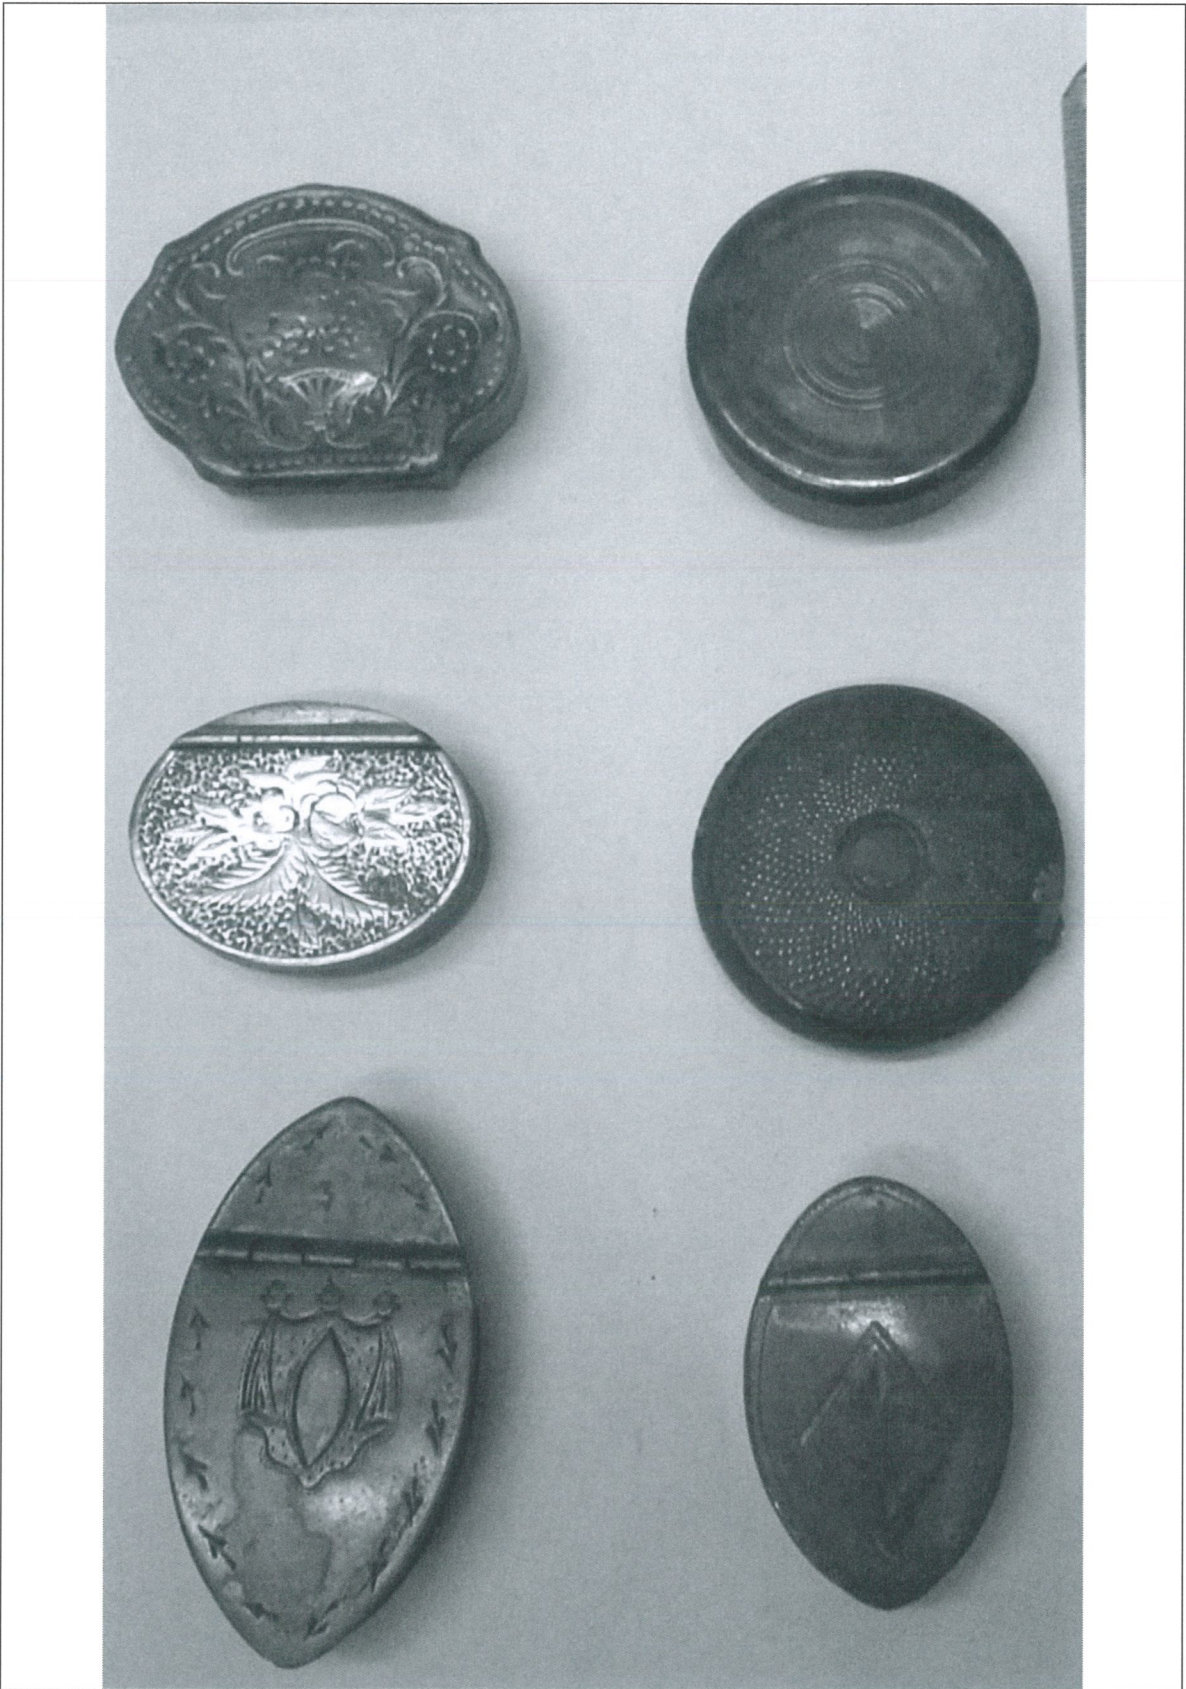

Below - this is not a snuff box but is in the same display and ownership and is an unusual Pewter weight. We might assume 5 ounces.

On the third row another by James Dixon & Sons of Sheffield but towards the 1900s. James Dixon must have produced a fascinating range of snuff boxes.
