Norwich and Norfolk Church Pewter

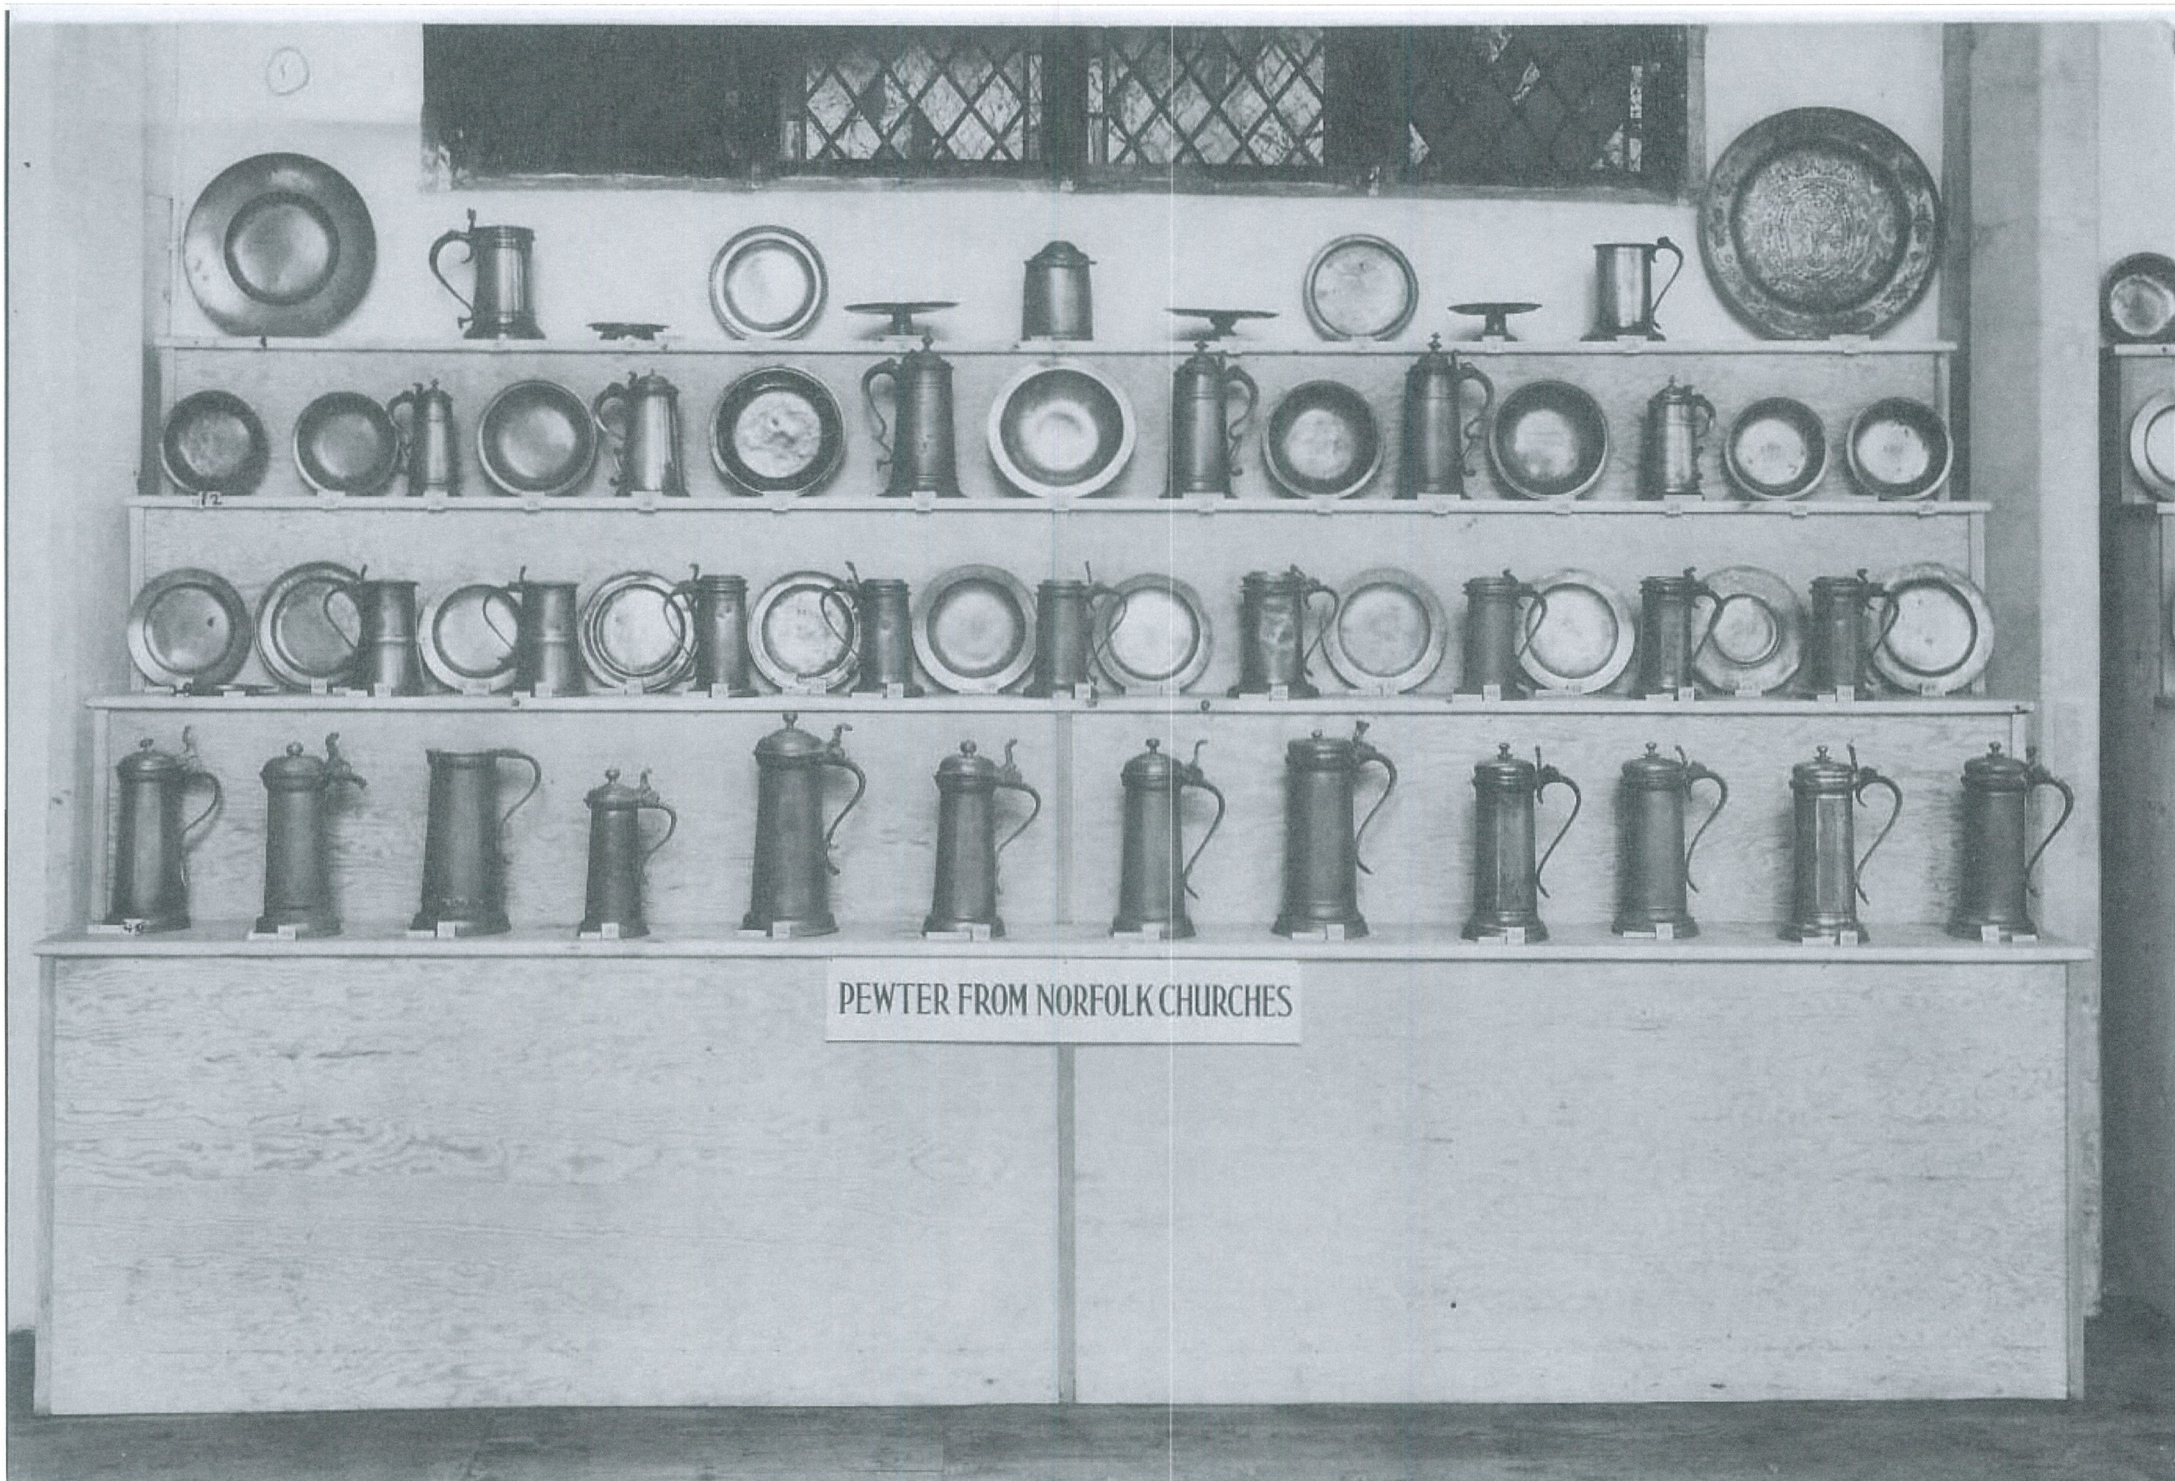

It is unclear from the files held what part the Society of Pewter Collectors took in this 1934 exhibition.

.....

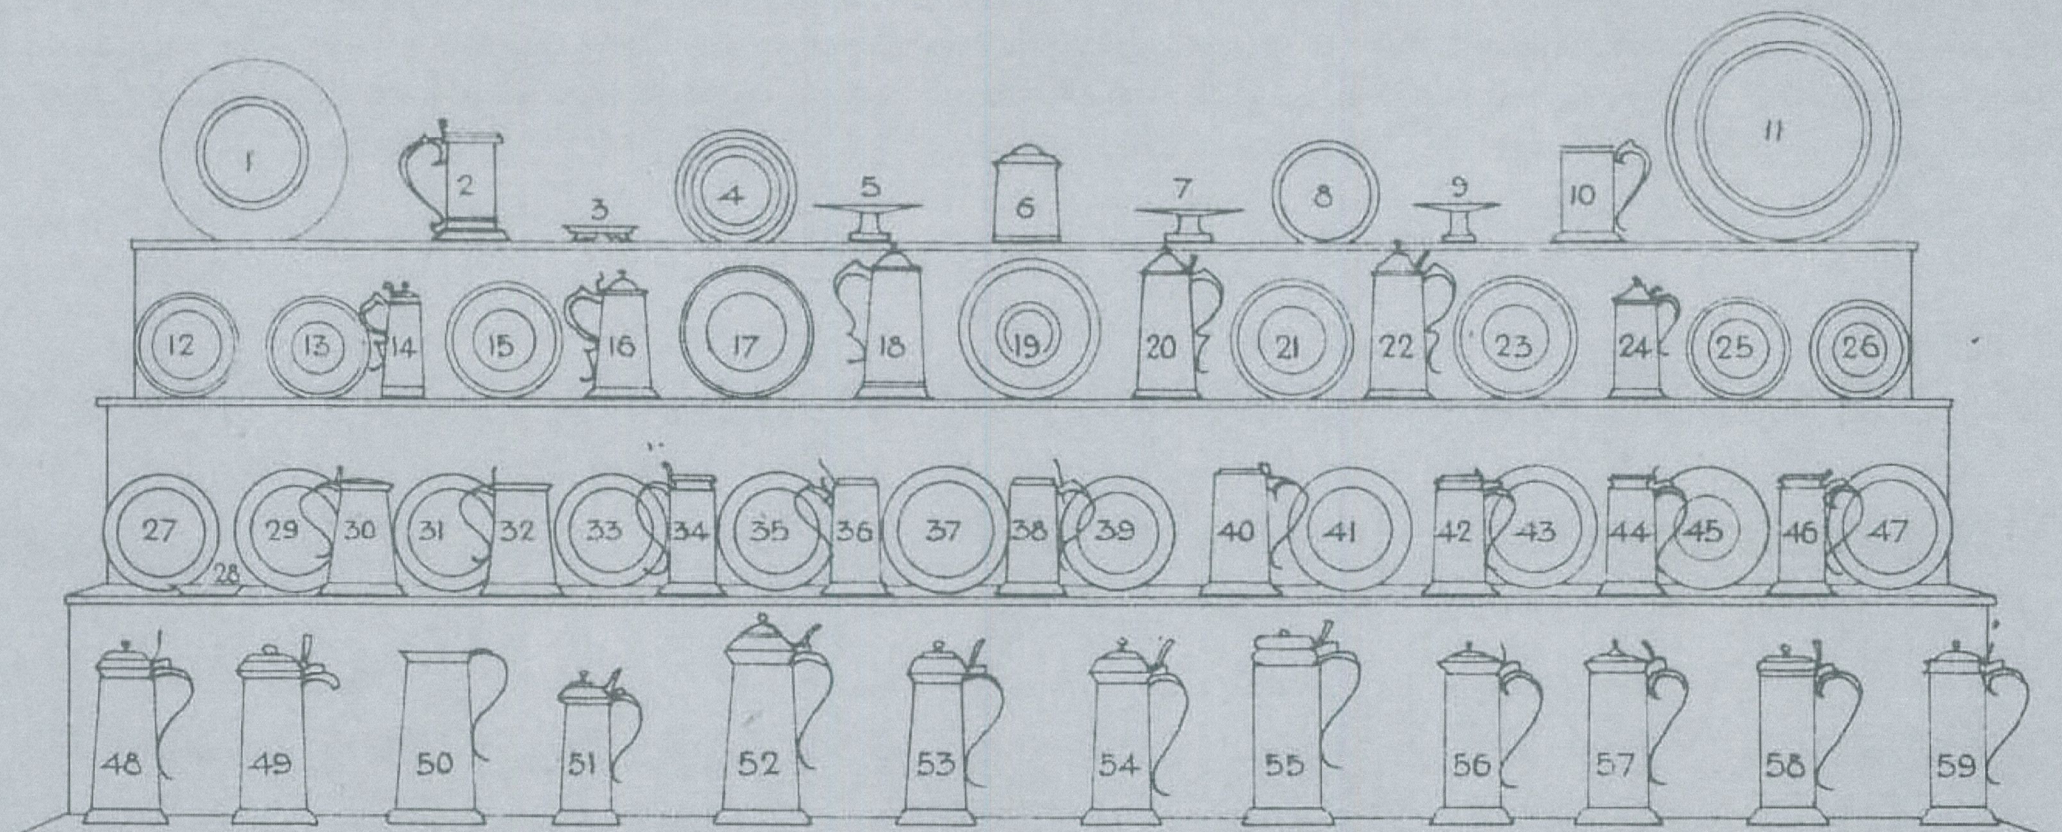

The Article from Alan V Sutherland Graeme following shows some of this pewter but is a more general article relating to Church Pewter.

The final section relates to a further Exhibition put on in 1962 by Christopher Peal and Peter Starling, and is included here larger for the better photograph, though this was clearly a smaller display.

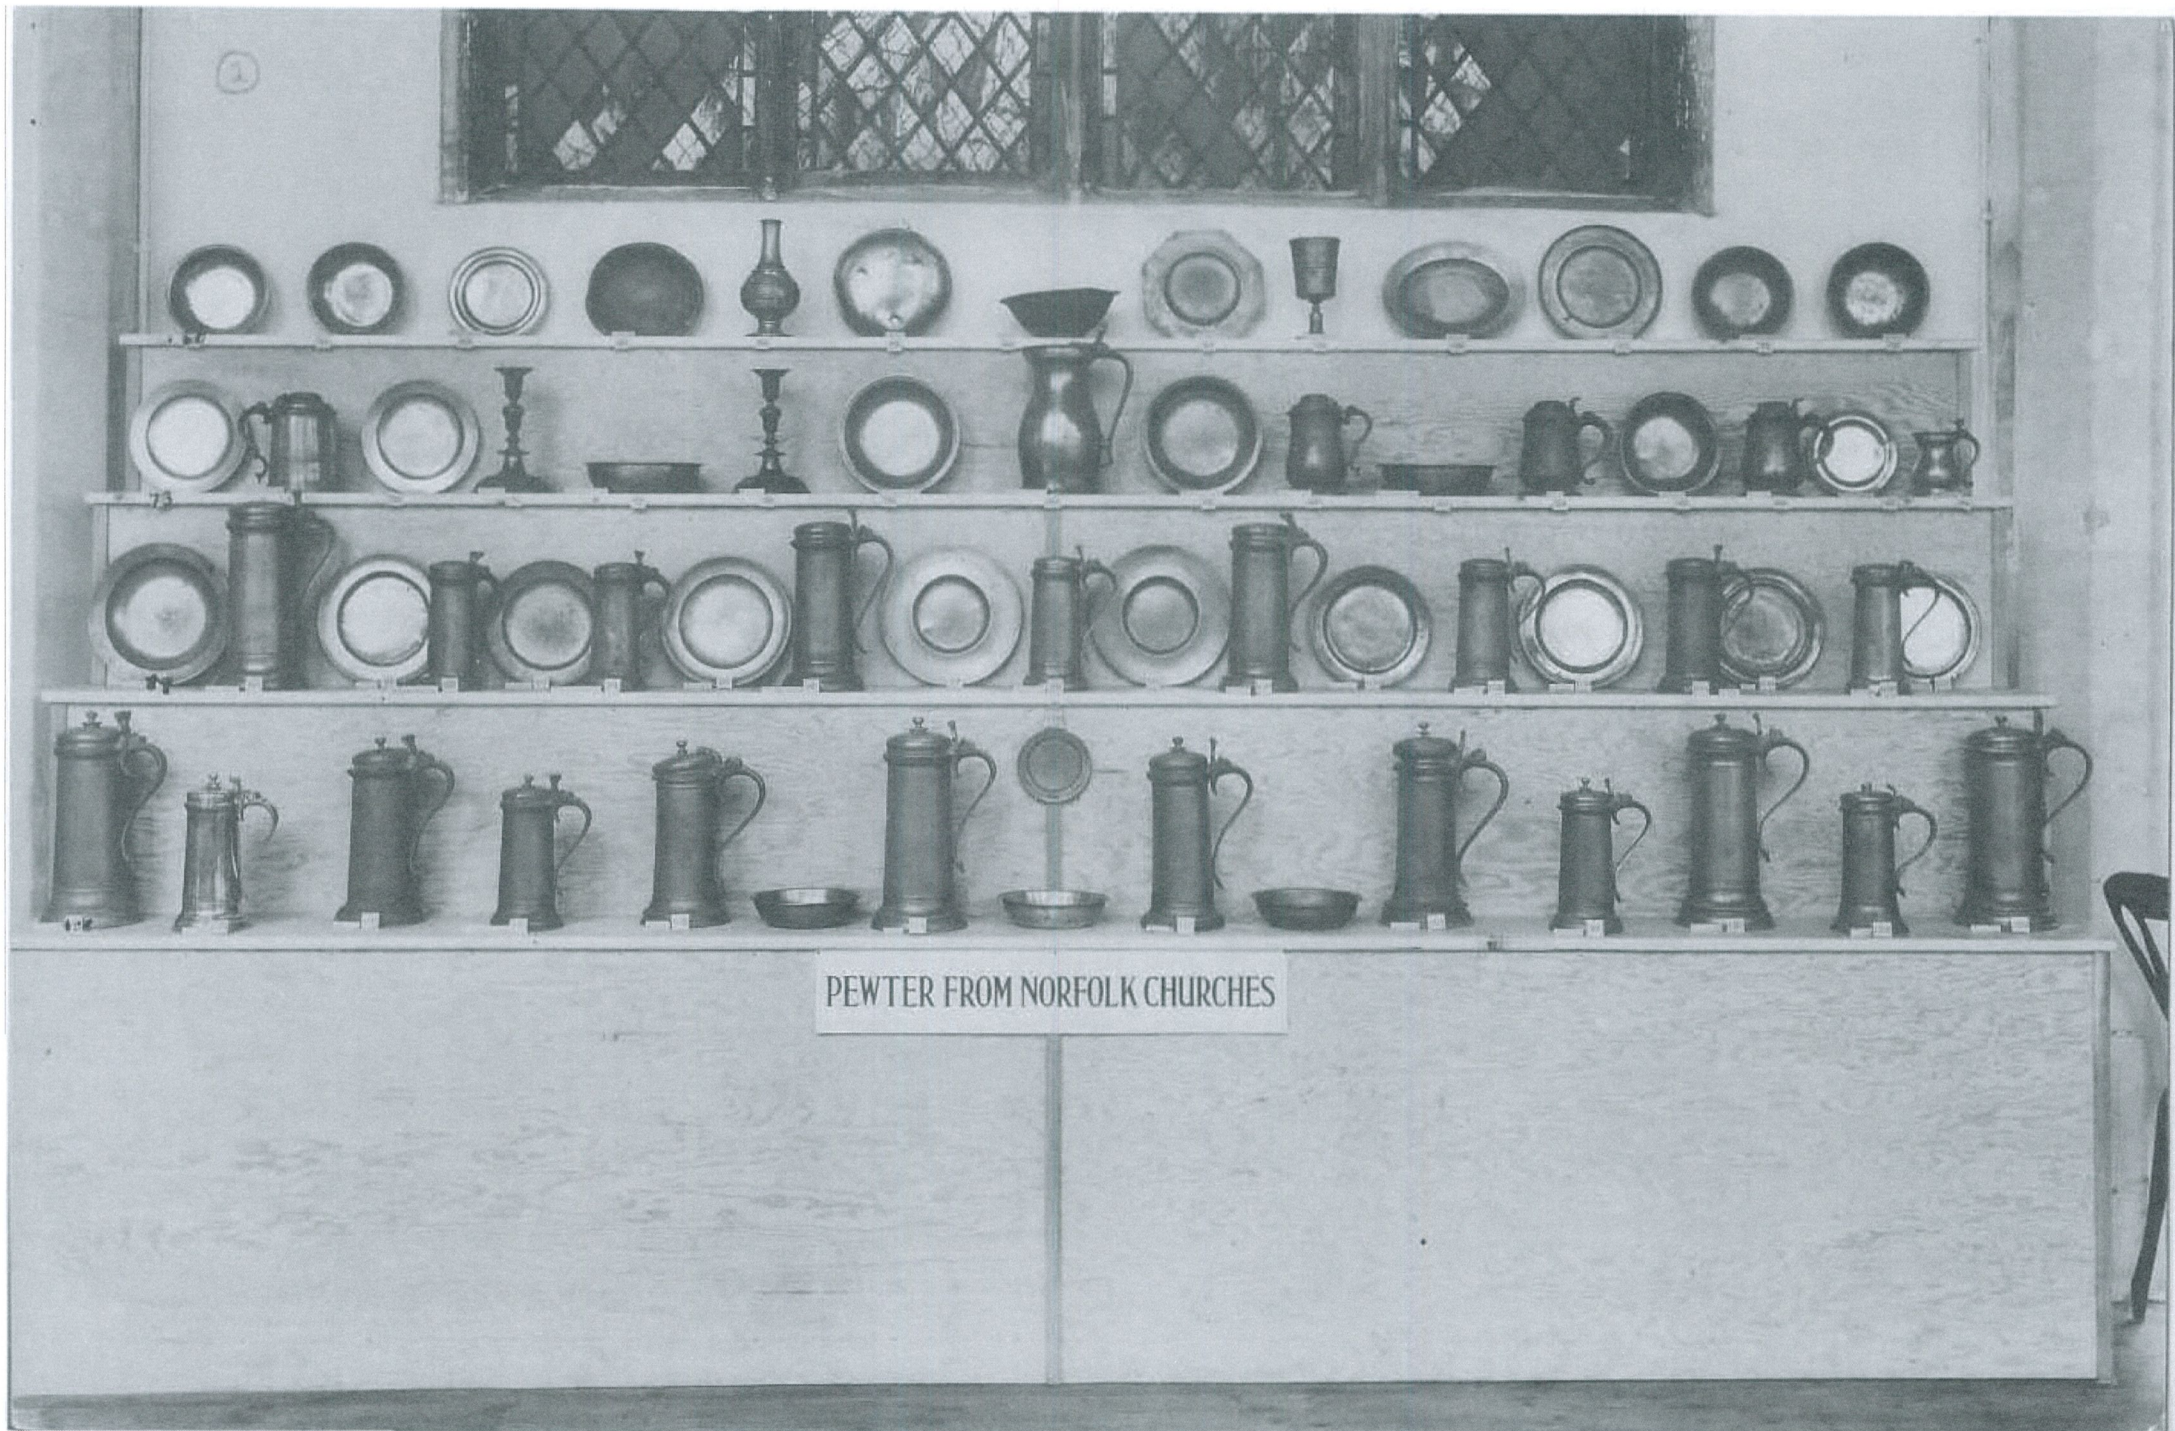

There was also further research in about 1978 by members of the Society, with the help of the WCOP, of which an assortment of notes and letters remain.
