The Antique Dealer & COLLECTORS GUIDE INCORPORATING ART & ANTIQUES

September 1982

Contents

New services, new readers

This September issue is the first to combine the regular authoritative feature articles of *The Antique Dealer & Collectors Guide* with a new service for readers in the comprehensive auction and fairs calendar, which was a popular feature of *Art & Antiques.* With improved printing and distribution schedules, we can now be more up to date in our news coverage to keep our readers better informed on developments in the salerooms and the world of antiques and the fine arts.

We are delighted to welcome readers of *Art & Antiques* to this first joint issue and we hope that all our readers will find the combined magazine to be a lively, informed and authoritative guide for collectors.
